Scott Perry
Chief Technology & Procurement Officer

Scott Perry is Chief Technology & Procurement Officer for the Fleet Management Solutions business segment of Ryder System, Inc., a FORTUNE 500® commercial fleet management, dedicated transportation, and supply chain solutions company. As Chief Technology & Procurement Officer, Mr. Perry oversees the Ryder Fleet Management Solution business segment's Supply Management function; the Fuel and Telematics product portfolios; total tire management; the field vendor network; and Advanced Energy and Product Technologies for the Global FMS division. Mr. Perry oversees the Company's growing portfolio of emerging technology solutions as well as extending Ryder's leadership position in the advanced technology vehicle industry.

Mr. Perry's responsibilities include identifying new technologies that would enhance and improve our current product and service offerings to external customers, and the general marketplace. Mr. Perry also heads Ryder's Global Fuel Products strategy, which includes the Company's growing leadership position in the advanced fuels vehicle industry.

In Mr. Perry's 25 year tenure at Ryder he has held a number of roles including General Manager, Director of Operations, and his most recent role of Vice President, Supply Management & Global Product Management.

Mr. Perry holds an MBA from the University of Tennessee and has over 27 years of experience in vehicle maintenance operations, logistics and distribution management, carrier and transportation management, and warehouse operations. He serves on the executive committee of the board of directors for the Florida Trucking Association (FTA), is currently chairman of the board of Truckers Against Trafficking (TAT), chairman of the board of the North American Council for Freight Efficiency (NACFE), and finally, serves on the Executive Committee and acts as vice-chairman of the board for NGVA (Natural Gas Vehicles for America).
