Anthony Povinelli
Global Product Line Director
Active Aerodynamics
Magna Exteriors

As global product line director of active aerodynamics for Magna Exteriors, Tony Povinelli directs a global team to develop and implement new-to-market drag reduction systems to meet customer needs for improved fuel ecomony and reduced emissions. Povinelli has run the Active Aerodynamics group since its inception in 2010.

Previously global director for front-end modules and active aerodynamics, Povinelli has been with Magna for 18 years. Throughout his tenure, he held numerous positions including director of advanced technology and business development, director of program development, director of supplier development and lead program manager. Prior to Magna, Povinelli spent five years with Denso and gained a deep knowledge of HVAC and cooling module systems.

Povinelli holds a Bachelor of Science in mechanical engineering from the State University of New York at Buffalo.
